Eagle Luxe Reel Theatre Opens With Frozen II

Eagle, Idaho - The new 11 screen luxury seating theatre is complete and opened in time for Thanksgiving break. Opening night was kicked off as a celebration for everyone involved in the construction of the theatre. Workers and their families were treated to a movie, popcorn and soda. "It was nice to spend the evening with our families enjoying the theatre that we've all been working so hard to complete before the holidays. Special thanks to the Reel Theatre Team for hosting!" says Dannie McMurray, Superintendent. "Our hats off to all of the subcontractors and project management team. This truly was a group effort, we couldn't have done it without everyone involved." The theatre is the first to be constructed in Eagle.

McAlvain Opens New Office Location in Idaho Falls!

Idaho Falls, Idaho - An Open House and Ribbon Cutting Ceremony was held earlier this month to celebrate the grand opening of our new Idaho Falls, Idaho office.

"This new office will enable McAlvain to further expand its services to the Eastern portion of our State. Our loyal clients have inspired and urged us to make this decision. And our many employees who live in eastern Idaho are excited about our investment and strategic growth in this important part of our State."

- Torry McAlvain, CEO.

Construction to Start on the Lander Street WRF Improvements Project

Boise, Idaho - Construction activities on main portions of the City of Boise's Lander Street Wastewater Plant will begin to ramp up shortly after trade bids were received earlier this month. In preparation for the work on the main site, initial construction completed included a new permanent ramp off Veteran's Memorial Parkway (pictured top left corner), perimeter fencing around the facility and a new 1,200 ft addition/realignment of the Boise Greenbelt (pictured bottom right corner). Facility improvements to the facility will include a new headworks building, UV disinfection building and site utilities upgrades. Work is expected to last through the end of 2022.

Construction Updates in Photos

Below is a partial list of current projects and progress:

Updated Branding

Our branding has undergone some updates this year reflecting our joining the BIG-D Family of Companies. The addition of "A Big-D Company" text has been added below our full logo. Business Cards and Letterhead have also been refreshed and the Iron Man graphic with the updated logo have been added to our fleet of trucks.

COLD WEATHER IS HERE!

Working in cold environments can cause cold stress.

What are the most common cold induced illnesses/injuries?

- » **Hypothermia**
When body heat is lost faster than it can be replaced. Body temperature drops less than 95°F. Occurs in very cold temperatures.
- » **Frostbite**
Caused by freezing of the skin and underlying tissues. Typically affects the extremities particularly the feet and hands.
- » **Trench Foot**
Caused by prolonged exposure to wet and cold temperatures. To prevent heat loss the body constricts blood vessels which leads to loss of circulation and skin tissue damage.

Seek medical assistance as soon as possible. Call 911 in an emergency.

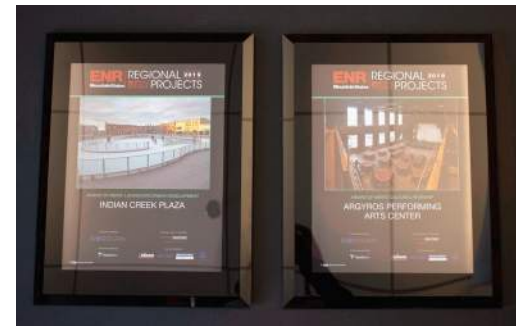

How can cold stress be prevented?

- » Dress Warm
- » Stay Dry
- » Drink warm sweetened fluids (no alcohol)
- » Keep Extra Clothing Handy
- » Additional resources: cdc.gov/niosh/topics/coldstress

Everyone Goes Home *Safe* Each Day - No Exceptions!
